Discussion

- How do you understand the connection between physical and spiritual healing?
- Have you felt like your prayers for healing go unanswered? How did that affect your relationship with God?
- What impact has it had on your life or faith when you watched a loved one suffer or experienced deep grief?
- How can unconditional love bring healing – physically, emotionally or spiritually?
- Have you experienced the power of being reunited with a community after feeling alienated? What difference did that make?
- How can we prioritize the wellbeing of people over laws or traditions that get in the way of caring for human need?
- How have your own experiences of suffering affected your awareness of the suffering of others?
- As we love and serve others, how does it transform us?
